Construction activity related to the Trans Mountain Expansion Project is underway in your region. Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This construction impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Go to transmountain.com/socio-economic-reports to view the complete Socio-Economic Monitoring Report for this region.

**Topics:**
- Sensory Disturbance

**Noise and vibration from construction activity at Westridge Marine Terminal (WMT)**

Trans Mountain will follow up on noise or vibration complaints related to construction activity at WMT. Trans Mountain will work with stakeholders to resolve and address such complaints where practicable. Noise levels at the Westridge Marine Terminal construction site are monitored continuously. Trans Mountain is following approved pile installation methods as outlined in the WMT Environmental Protection Plan. These installation methods reduce the intensity of noise and vibration emitted.
