Construction activity related to the Trans Mountain Expansion Project is underway in your region.

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Go to transmountain.com/socio-economic-reports to view the complete Socio-Economic Monitoring Report for this region.

Worker Accommodation Nights

- At Home: 48,085
- Local Accommodation: 10,440
- Camp Community: 0

Total Living Out Allowance Paid to Workers $1,662,995
Worker Health and Medical Services

Vehicles and Incidents**

Vehicles Parked in Staging Area (Daily Average) 311

Workers Transported from Staging Area to Job Site (Daily Average) 348

Total Number of Vehicle Incidents 6

Public Inquiries* and Responses** Trans Mountain will follow up on any complaints related to operations and construction.

Total Number of Inquiries for this Quarter 28

Worker Conduct

Truck driver not respecting stop sign; disrespectful language near BT. Trans Mountain contacted the contractor, who then followed up with the trucking company. Trans Mountain monitors the contractor’s Traffic Management Plan and Traffic Control Plans to ensure all traffic requirements are followed. Under the Worker Code of Conduct, all workers are considered ambassadors of the Project, who must ensure those living near the Project are treated with respect and consideration.

Sensory Disturbances

Light, dust and noise from Westridge Marine Terminal (WMT) and Burnaby Terminal (BT). Trans Mountain is following up on dust, noise and visual complaints related to construction activity at WMT and BT. Trans Mountain is working with stakeholders to resolve such complaints where practical. Noise levels at the WMT site are continuously monitored and mitigation measures are put in place where practical. Trans Mountain is working to ensure compliance with the CER-approved Noise Management Plan and Light Emissions Management Plan for WMT.

Traffic

Project-Related Traffic. Trans Mountain will continue to follow up on traffic-related concerns. Contractors have a Traffic Management Plan addressing public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone. Trans Mountain follows up with the contractor to ensure traffic-related requirements are followed.

Worker Conduct

**Socio-economic topics only
