This report reflects the August 30, 2018 Federal Court of Appeal Decision cancelling the Order in Council, which had approved a Certificate of Public Convenience and Necessity related to the Trans Mountain Expansion Project. Projections* include workers required to suspend construction-related activities on the Project in a safe and orderly manner.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This construction impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Go to transmountain.com/socio-economic-reports to view the complete Socio-Economic Monitoring Report for this region.

**Public Inquiries and Responses**

- **Total Number of Inquiries for this Quarter**: 3
- **Worker Conduct**
- **Sensory Disturbance**
- **Safe Driving**

*Socio-economic topics only

---

**Worker interaction (unpleasant tone of voice) with community member at Westridge Marine Terminal (WMT) fenceline**

The Worker Code of Conduct specifies that all workers are ambassadors of the Project, and it is important that the people living in the vicinity of the Project are treated with respect and consideration during the Project construction time frame.

---

**Noise and vibration from construction activity at WMT**

Noise levels at the WMT construction site are monitored continuously. Trans Mountain is following approved pile installation methods as outlined in the WMT Environmental Protection Plan. These installation methods reduce the intensity of noise and vibration emitted.

---

**Traffic – Safe driving practices**

The Worker Code of Conduct specifies that all workers must comply with all applicable laws. As outlined in the Health and Safety Management Plan, Trans Mountain also requires that all contractors have a Safe Driving Program in their Project-Specific Safety Plan.
