

Construction related to the Trans Mountain Expansion Project is underway in your region.

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Sensory
Disturbances

Project-related dirt and debris on roads near the Rosenthal neighbourhood.

Trans Mountain follows up on dust and debris complaints to confirm their relation to Project activity. Trans Mountain works to ensure compliance with bylaws and requirements. Trans Mountain works with stakeholders to resolve and address such complaints where practical. Trans Mountain responded that the roads are being swept and when possible, the hydrovac is being used to clean tires before leaving the right-of-way.

Project-related vibrations felt near the Rosenthal neighbourhood.

Sheet piling removal is currently taking place and should be concluded by June 30. Trans Mountain advised that fixtures rattling due to vibrations are common and, although the vibrations can be felt by people, all impacts are cosmetic and the structural integrity of homes should not be compromised.

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.
