

Construction related to the Trans Mountain Expansion Project is underway in your region.

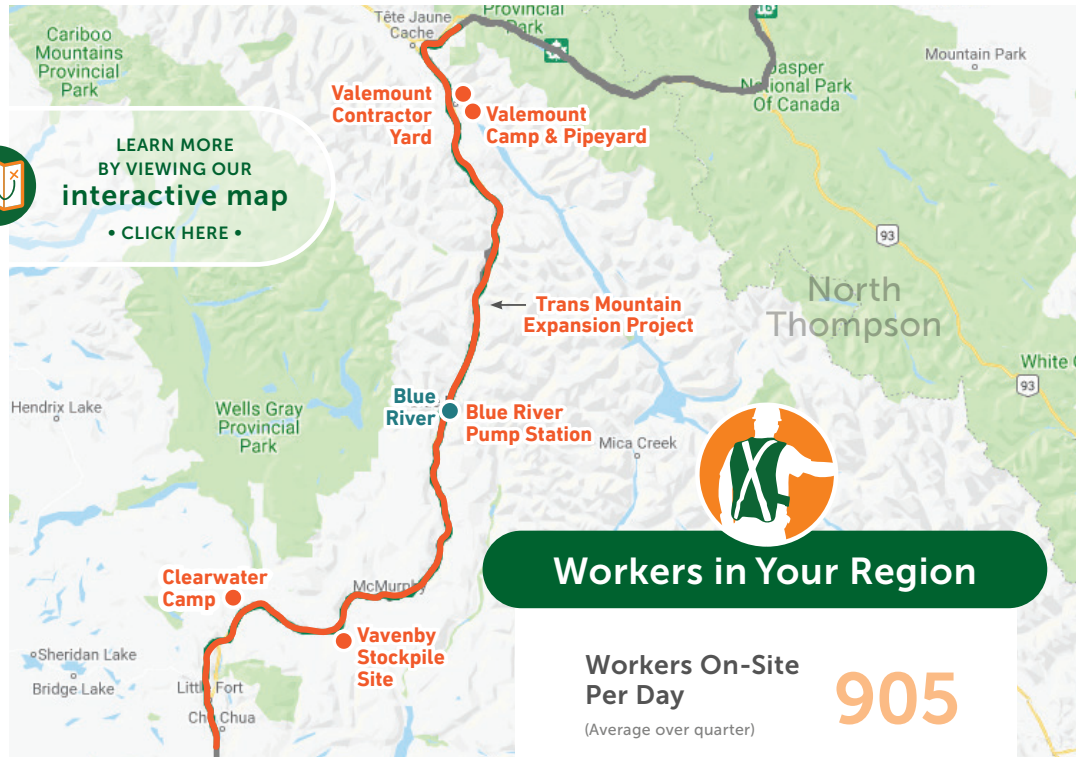

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Protocols

Project-related dust near the Valemount Stockpile site.

Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain will work with stakeholders to resolve and address such complaints where practical. Trans Mountain advised that the site is being watered twice per day, however, given the dry conditions the frequency will be increased.

Project-related truck speeding near Moose Lake and Heffley Creek.

Contractors have a Traffic Management Plan addressing public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone. Trans Mountain follows up with the contractor to ensure traffic-related requirements are followed.

Health Authority received a complaint regarding adhering to COVID protocols.

In response to the evolving COVID-19 pandemic, Trans Mountain and construction contractors continue to work diligently together to ensure adherence to all advice and direction from government and health officials at the provincial, state and federal levels. Health and Safety personnel frequently monitor for compliance on sites. The camps have isolation wings that are used to support workers requiring isolation.
