

Construction activity related to the Trans Mountain Expansion Project is underway in your region.

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Go to transmountain.com/socio-economic-reports to view the complete Socio-Economic Monitoring Report for this region.

Public Inquiries* and Responses**

Trans Mountain will follow up on any complaints related to operations and construction.

Total Number
of Inquiries
for this Quarter

Sensory
Disturbances

Dust from gravel trucks

Trans Mountain will continue to follow up on dust complaints to confirm their relation to Project activity. Trans Mountain will work with stakeholders to address such complaints where practical. In this case, the water truck had gone to Edson to fill up.

Noise from Hardisty Horizontal Directional Drill

Trans Mountain will continue to follow up on noise complaints and will work with stakeholders to resolve and address such complaints where practical. In this case, the local crew was hammering casing after the allotted work hours and immediately ceased. A mitigation strategy was developed and no hammering will occur in the evenings, auguring activities will be completed in mid-evening and welding activities will take place overnight. Temporary sound barriers will be installed as required.
