Construction related to the Trans Mountain Expansion Project is underway in your region.

Trans Mountain and its contractors make it a top priority to protect our workers and communities by following government and company health and safety measures as construction continues.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Workers Transported from Staging Area to Job Site
(Daily Average)

1,057

* Personal vehicles. No active TMEP yard/staging area during this period. Vehicles parked in Hope. Vehicle numbers based on average of mid- and end-of-month counts.

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

- **Worker Conduct**
  - Total number for this Quarter: 10

- **Traffic/Driving**

- **Sensory Disturbances**

- **Access**

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain’s ongoing operations and maintenance or inquiries related to future construction activities.
† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.

**Allegation of a traffic flagger exhibiting unbecoming behaviour toward Hope resident.**

The Worker Code of Conduct specifies all workers are ambassadors of the Project, and that people living nearby are treated with respect and consideration during construction. Complaints regarding worker conduct in the community are investigated internally to determine appropriate disciplinary action.

**Resident complained about speeding through neighbourhood.**

Contractors have a Traffic Management Plan that addresses public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone that consider potential impacts with mitigation. Trans Mountain follows up with the contractor to ensure traffic-related requirements are met. Each complaint is examined to provide additional information and/or appropriate followup. In this instance, the Traffic Management team will monitor this neighbourhood.

**Project-related dust impacting RV park residents on Flood Hope Road; dust, noise and light coming from Laidlaw Stockpile Site.**

Hope resident complained about a portable toilet odour.

Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain works with stakeholders to resolve and address such complaints where practical. For the RV park dust, water trucks are used at least twice per day on the road to mitigate dust. For the odour complaint, the contractor confirmed the portable toilet was in good condition and the situation will be monitored.

**Member of public cannot access gold claim due to construction.**

Each complaint is examined to provide additional information and/or appropriate followup. In this instance, the Land team will investigate.
