Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Go to/click here transmountain.com/socio-economic-reports to view the complete Socio-Economic Monitoring Report for this region.

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Workers in Your Region

Workers On-Site Per Day
(Average over quarter) 290

Three-Month Total of Worker Days On-Site in Reporting Period
6,815

Anticipated Worker Days On-Site in the Next Reporting Period

</table>

* Personal vehicles. Vehicle numbers based on average of mid- and end-of-month counts.

## Construction Inquiries and Topics*

- **Traffic**
  - Abbotsford resident vehicle damage after backing into a Project sign.
  - Contractors have Traffic Management Plans addressing public protection measures, access roads/routes to the construction site, signage and Traffic Control Plans for each work location. Trans Mountain follows up with the contractor to ensure all traffic-related requirements are met.

- **Sensory Disturbances**
  - Bridal Falls resident dust concern.
  - Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain will work with stakeholders to resolve and address such complaints where practical. Work has been put on hold due to Great Blue Herons nesting. Before work resumes, Trans Mountain will ensure a water truck visits the area to wet the roads.

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain’s ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.
