Monitoring Socio-Economic Impacts of Construction

Jasper–Mt. Robson Highlights

Reporting Period: April–June 2022

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

* Personal vehicles. Vehicle numbers based on average of mid- and end-of-month counts.

Construction Inquiries and Topics

- Total number for this quarter: 2
- Worker accommodation: Project workers using local accommodation contributing to rental housing pressures. Trans Mountain is committed to sharing information about its workforce to facilitate community readiness and business planning.
- Road closure preventing hiking. The road in question was not a public road and is meant for construction use.

Trans Mountain is committed to addressing any complaints related to operations and construction.

Trans Mountain continues to engage with the Municipality of Jasper to cooperatively identify and implement available solutions on issues related to presence of temporary workforce residing in the community. Many Project workers are using recreational vehicles rather than local housing. Project-related workforce is anticipated to start reducing in August 2022. Trans Mountain continues to share information about its workforce to facilitate community readiness and business planning.

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.
