Monitoring Socio-Economic Impacts of Construction

BC Interior Highlights

Reporting Period: October – December 2021

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Vehicles Parked in Staging Area*

- 577

(Daily Average)

* Personal vehicles. Vehicle numbers based on average of mid- and end-of-month counts.

Workers Transported from Staging Area to Job Site

- 678

(Daily Average)

Construction Inquiries and Topics*

- Traffic

Resident feedback about Mill Creek Road occasionally being blocked due to Project-related trucks.

Contractors have a Traffic Management Plan addressing public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone. Trans Mountain follows up with the contractor to ensure traffic-related requirements are followed.

Total number for this Quarter

- 1†

Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain’s ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.
