

Construction related to the Trans Mountain Expansion Project is underway in your region.

Trans Mountain and its contractors make it a top priority to protect our workers and communities by following government and company health and safety measures as construction continues.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Construction Inquiries and Topics*

Trans Mountain is committed to
addressing any complaints related
to operations and construction.

Total number
for this Quarter

Traffic

Damage to car when flagging arm came down on vehicle; incorrect sign placement resulting in damage to vehicle; Project workers parking on street; traffic delays; Project-related vehicles speeding; Abbotsford resident complained that street sweeper was leaving metal tines and rock on the roadway.

Contractors have a Traffic Management Plan that addresses public protection measures, access roads/ routes to the construction site and Traffic Control Plans for each work zone, which consider potential impacts with mitigation. Trans Mountain follows up with the contractor to ensure traffic-related requirements are met. Each complaint is examined to provide additional information and/or appropriate followup. For example, vehicle damage is being investigated and crews have taken steps to ensure it does not happen again. Workers have been advised not to park on streets.

Sensory
Disturbances

Noise in Abbotsford from Project-related vehicles using private driveway to turn around; early morning noise from Project-related delivery truck; noise and vibration from Project-related dump trucks and construction; concerns about vibration and dust from construction; Abbotsford residents complained about alarm going off overnight.

Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain works with stakeholders to resolve and address such complaints where practical. For example, crews have been reminded not to use private driveways to turn around. For the alarm in Abbotsford, security advised it was a trespass alarm and the security manager will follow up directly with the residents.

Worker
Conduct

Inappropriate language close to residential area.

The Worker Code of Conduct specifies that all workers are ambassadors of the Project, and that people living in the area are treated with respect and consideration during construction. In this instance, the contractor and Trans Mountain employees have been reminded to tell work crews to watch their language.

Access

Yarrow resident issues exiting property due to traffic congestion.

Each complaint is examined to provide additional information and/or appropriate followup.

* Socio-economic topics
related to community impacts
only. Data in this report is
reflective of activities specific
to active construction of the
Trans Mountain Expansion
Project. Data does not reflect
Trans Mountain's ongoing
operations and maintenance
or inquiries related to future
construction activities.

† Inquiries from same individual/
household on same topic are
considered same inquiry. May be
multiple inquiries on similar theme.

COMMITTED TO SAFETY SINCE 1953.
