

Construction related to the Trans Mountain Expansion Project is underway in your region.

Trans Mountain and its contractors make it a top priority to protect our workers and communities by following government and company health and safety measures as construction continues.

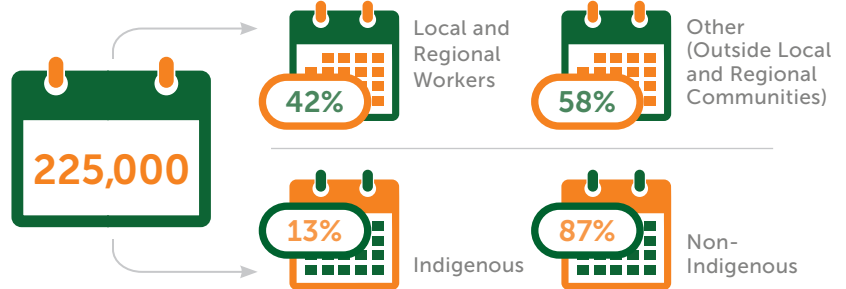

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

(Daily Average)

1,252

* Personal vehicles. Vehicle numbers based on average of mid- and end-of-month counts.

Workers Transported from Staging Area to Job Site
(Daily Average)

1,474

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

Total number for this Quarter

Sensory Disturbances

Project-related noise, vibration, dust and debris in various areas near Chilliwack, Abbotsford, Rosedale and Yarrow.

Trans Mountain is monitoring to ensure compliance with bylaws and requirements. Trans Mountain works with stakeholders to resolve and address such complaints where practical. Each complaint is examined to provide additional information and/or appropriate followup. Examples of followup and responses include increasing water used by street sweepers to assist with dust suppression in areas where work is taking place; informing residents of time frame when work will be completed; working within times allowed by noise bylaws; and exploring dust impact resolutions directly with stakeholders.

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

Traffic/Driving/
Road Use

Project-related traffic delays, wait times, vehicle impacts, parking, driving conduct and road conditions in various areas of Chilliwack and Abbotsford.

Contractors have a Traffic Management Plan that addresses public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone, which consider potential impacts with mitigation. Trans Mountain follows up with the contractor to ensure requirements are met. Each complaint is examined to provide additional information and/or appropriate followup. Trans Mountain monitors delays along the Project corridor through a delay coordination system. Examples of followup and responses include providing information about wait time limits and no longer uploaded equipment during the day; reminding crews of the importance of safe driving; requesting video information about driving conduct; exploring installing bump signage; scheduling a road repair at the Unsworth crossing access point; and investigating business loss claims.

Environmental
Concerns

Community concerns and queries related to dewatering; creek water levels and water flowing off-site in Chilliwack; a water main break; soil and debris on right-of-way in Abbotsford; ground depressions on a property; wildlife corridors; and potential invasive species during reclamation.

Environmental mitigation measures are outlined in Project Environmental Protection Plans. Trans Mountain will followup on community concerns related to construction environmental issues. Examples of follow up and responses include providing information about water monitoring due to dry warm conditions and working with regulators as required; following up with construction team regarding alleged ground depression; providing information regarding water discharge practices, including Trans Mountain's testing and monitoring program and water being released meets BC Water Quality Guidelines for Aquatic Life; and providing information about species being planted (Rosa Woodsii), a native shrub common in green spaces throughout the Fraser Valley.

Access

Property impacts related to sandbags.

Trans Mountain investigates damage claims.

Worker
Conduct

Concern about individual working for a contractor in Chilliwack.

Each complaint is examined to provide additional information and/or appropriate followup. In this instance, the complaint was sent to the contractor for further investigation.

HEALTH AND SAFETY IS A SHARED RESPONSIBILITY.
