

**Construction related to the Trans Mountain Expansion Project is underway in your region.**

Health and safety for our workers, their families and communities is a top priority while maintaining safe construction activities during COVID-19. Trans Mountain and its Project contractors are adopting government and company health and safety measures to protect its workforce and ensure work can safely continue.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

on average of mid- and  
end-of-month counts.

Workers Transported from  
Staging Area to Job Site  
(Daily Average)

1,525

## Construction Inquiries and Topics\*

Trans Mountain is committed to  
addressing any complaints related  
to operations and construction.

Total number  
for this Quarter

Traffic/  
Driving

### Driving conduct near Valemount.

Contractors have a Traffic Management Plan addressing public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone. Trans Mountain follows up with the contractor to ensure traffic-related requirements are met.

### Traffic safety concerns on Highway 5, particularly with summer tourism traffic increasing.

Trans Mountain continues to work with contractors on messaging for electronic message boards and ensuring the public is well informed of work zones ahead. Trans Mountain also monitors delays along the entire Project corridor through a delay coordination system to ensure the public isn't adversely impacted by traffic control zones. Trans Mountain issued a driving safety bulletin to personnel in early July 2022.

Sensory  
Disturbances

### Project-related noise and vibration from construction near Blue River laydown yard, noise from hydrovac near Avola and the Clearwater HDD, dust near the stockpile site in Valemount and in Clearwater.

Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain will work with stakeholders to resolve and address such complaints where practical. Recent dry weather has resulted in an increase in dust. Crews are ensuring proper mitigations are in place for dust suppression moving forward.

Access

### Clearwater local golf course closed due to construction.

Trans Mountain works with landowners and business owners directly affected by construction. Businesses will let their customers know about closures.

\* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.

COMMITTED TO SAFETY SINCE 1953.
