

TRANSMOUNTAIN

Monitoring Socio-Economic Impacts of Construction

North Thompson Highlights

Reporting Period: January–March 2023

Construction related to the Trans Mountain Expansion Project is underway in your region.

Trans Mountain and its contractors make it a top priority to protect our workers and communities by following government and company health and safety measures as construction continues.

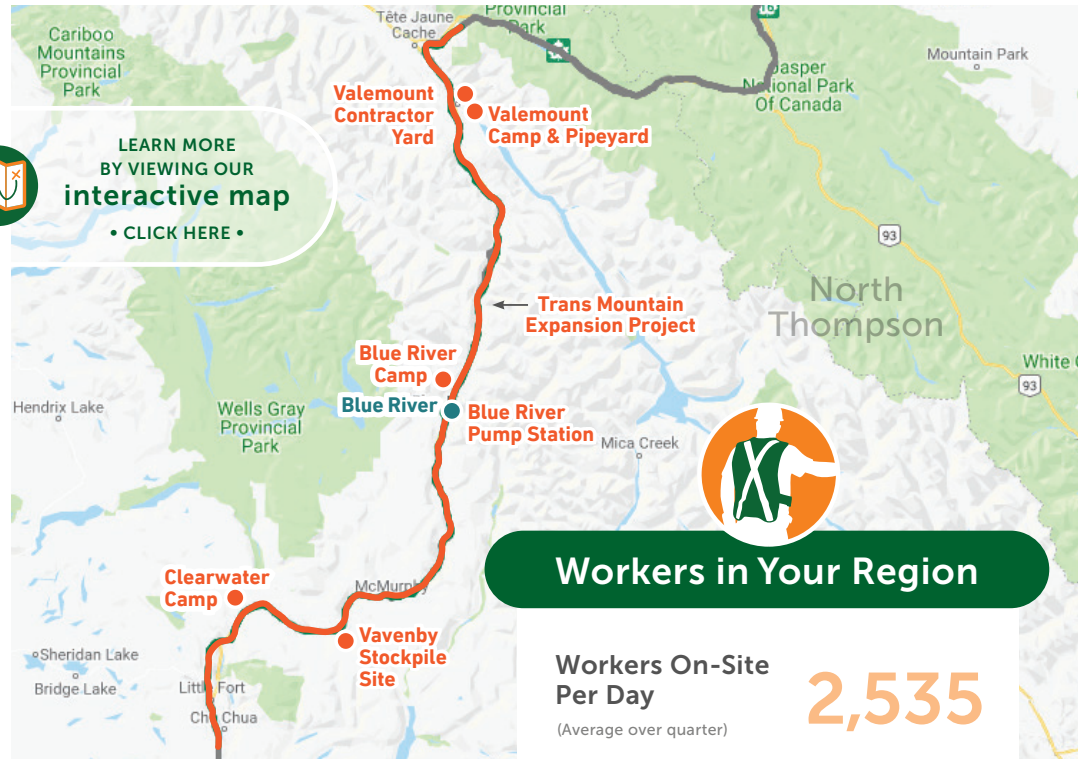

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Workers Transported from Staging Area to Job Site (Daily Average)

1,754

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

Total number for this Quarter

Sensory Disturbances

Sheet piling noise near the Canoe River Campground; noise and light from construction in Blue River and Avola.

Trans Mountain is working to ensure compliance with bylaws and requirements. Trans Mountain works with stakeholders to resolve and address such complaints where practical. In this instance, work is now complete near the Canoe River Campground and was to be completed shortly in Avola.

Project vehicles idling and impacts on air quality in Valemount.

Trans Mountain shares the concern about air quality and any potential impact on the Valemount community or Trans Mountain workforce who live and work in the region. Trans Mountain issued a related Safety Bulletin to workers on-site, as well as discussing anti-idling behaviours with supervisors.

Construction related noise near Blue River.

Trans Mountain provided Thompson Nicola Regional District with an update on the construction schedule and timeline. Trans Mountain undertook additional local notifications regarding upcoming construction activity.

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

Traffic/Driving,
Off-road Trails

Local resident complained about driving habits of Project-related workers in Blue River.

Contractors have a Traffic Management Plan addressing public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone. Trans Mountain follows up with the contractor to ensure traffic-related requirements are followed or provides information to the public as required. In this instance, the contractor has been made aware of the incident and has reminded crews of safe driving practices and that all road laws and requirements must be obeyed.

Recreation business concern regarding drones flying near loaded helicopters; individual recreation trail user safety concern regarding Trans Mountain piling dirt and creating a steep slope snow bank.

Trans Mountain follows up with stakeholders to resolve and address Project complaints where practical. In this instance, concern regarding drones was brought to Health and Safety for investigation. It was confirmed the stakeholder was snowmobiling where they should not have been and signage is in place to alert stakeholders that the area is an active right-of-way.

Worker
Conduct

Valemount resident complained about worker conduct at the post office, general workforce conduct in Valemount.

The Worker Code of Conduct specifies all workers are ambassadors of the Project and that people living near the Project are treated with respect and consideration. Complaints regarding off-duty worker conduct in community are investigated internally to determine appropriate disciplinary action. The Contractor included reminders about respectful interactions and personal conduct in two Daily Safety Bulletins. The Contractor also included reminder information about Family Assistance Programs and Project Counselor Services.

Local
Infrastructure/
Services

Valemount resident concern about construction impacts on well.

A Trans Mountain Land team representative reached out to the resident directly.

Impacts to local services related to presence of Project workers and Valemount Camp Community. Impacts to Village roads.

Trans Mountain seeks to understand specific out-of-pocket public infrastructure costs incurred by the Village of Valemount directly attributable to the Project. Trans Mountain works to adhere to the requirements of road use permits required for designated access roads for construction. No permit was required for general use of community roads.

Trans Mountain will review and respond to any proposal received from the Village of Valemount related to incurred public infrastructure costs. Trans Mountain will also provide increased frequency of communication to the Village of Valemount on construction updates and timelines, including estimated workforce numbers.

Road Impacts in District of Clearwater

Trans Mountain will work to adhere to the requirements of road use permits. Trans Mountain plans to discuss road assessments and repairs with the District of Clearwater after summer work is complete, as there will still be heavy trucks on the road through this period.

HEALTH AND SAFETY IS A SHARED RESPONSIBILITY.
