

TRANSMOUNTAIN

Monitoring Socio-Economic Impacts of Construction

BC Interior Highlights

Reporting Period: April–June 2023

Construction related to the Trans Mountain Expansion Project is underway in your region.

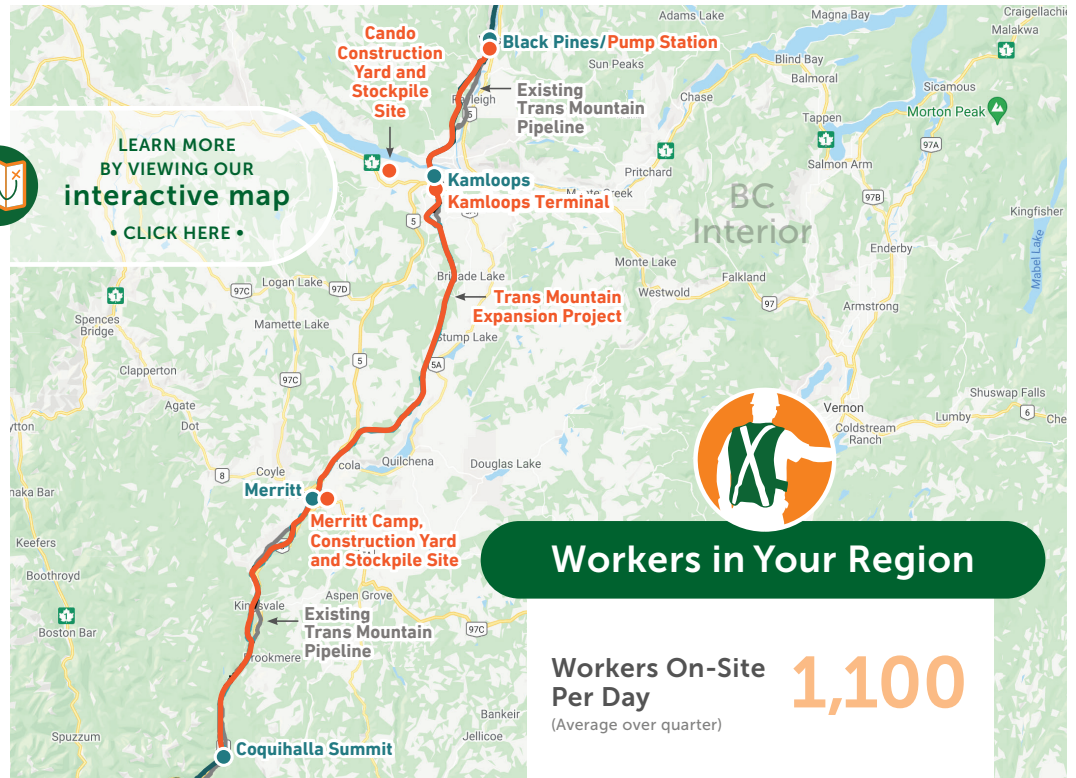

Trans Mountain and its contractors make it a top priority to protect our workers and communities by following government and company health and safety measures as construction continues.

Trans Mountain is monitoring the impact of construction on pipeline communities through a series of indicators identified in the Socio-Economic Effects Monitoring Plan. This Project impact information is gathered for each three-month period in a regional Socio-Economic Monitoring Report. Highlights from the quarterly regional report are provided here.

Vehicles Parked in Staging Area*
(Daily Average)

495

* Personal vehicles. Vehicle numbers based on average of mid- and end-of-month counts.

Workers Transported from Staging Area to Job Site
(Daily Average)

696

Construction Inquiries and Topics*

Trans Mountain is committed to addressing any complaints related to operations and construction.

Total number for this Quarter

* Socio-economic topics related to community impacts only. Data in this report is reflective of activities specific to active construction of the Trans Mountain Expansion Project. Data does not reflect Trans Mountain's ongoing operations and maintenance or inquiries related to future construction activities.

† Inquiries from same individual/household on same topic are considered same inquiry. May be multiple inquiries on similar theme.

Worker Conduct

Concerns regarding smoking outside designated smoking areas.

The Worker Code of Conduct specifies all workers are ambassadors of the Project and that people living near the Project must be treated with respect and consideration. In this instance, the area was cleaned up and discussions occurred with the contractor.

Traffic/Driving

Kamloops residents complained of dust from Project vehicles on local roads. Traffic speed on Coldwater Road.

Contractors have a Traffic Management Plan that addresses public protection measures, access roads/routes to the construction site and Traffic Control Plans for each work zone, which consider potential impacts with mitigation. Trans Mountain followed up with the contractor to ensure traffic-related requirements were met. In the first instance, information was passed to the contractor and water trucks were deployed to suppress dust on local roads. In the second instance, Trans Mountain and the contractor developed and shared a list of actions to address the concern and continue to engage with Coldwater Indian Band on the issue.

Access

Unauthorized access on reserve during hydrostatic testing dewatering.

Trans Mountain follows up on complaints about land access and works directly with the community or landowner. In this instance, Trans Mountain worked with the community (Lower Nicola Indian Band) to obtain an access letter.

HEALTH AND SAFETY IS A SHARED RESPONSIBILITY.
